SIR,

I have the honour to state that the admission of far advanced cases of Tuberculosis into the Sanatorium does no good to the patients concerned. It only serves to affect the reputation of the institution. To prevent indiscriminate admissions and also to obviate the inconvenience likely to be caused by refusal of admission to an advanced patient going to the institution from a distant place in the hope or securing admission, it is usual in all sanatoria, to attach to the form of application, a medical report, to be signed by a qualified medical man, describing the condition of the patient at the time of the application. The enclosed sample forms meant for the purpose may therefore be sanctioned in addition to those sanctioned in G.O.No. ~~L~~ 4321-2/Med 86-21-2 dated 3-2-22 and the Superintendent, Government Printing, be kindly instructed to have 500 copies of the same printed at the Branch Press, Mysore and supplied to the Medical Officer in charge of the Princess Krishnajammanni Sanatorium, Mysore.

I have the honour to be,
Sir,

The Memorial of Lala Sham Sunder is read and nothing can be said against the merits. But I am afraid it is too early to prescribe any such concessions. It will debar many unemployed from working the Sanatorium land and will give rise to a lot of complaints against the Executive which may result in some harm before we have these rules

No. C 1060-39 of 21-22 Office of the Senior Surgeon in Mysore,

Bangalore, 26th February 1923. 27/II 4954-A

From

Dr. H.B.Mylvaganam, F.R.C.S.(ENG).,

Senior Surgeon in Mysore,

BANGALORE.

To

T. E. Jeyarama Aiyar, Esq., B.A., B.L.,

Secretary to Government, Revenue Department,

BANGALORE.

Sir,

In reply to your letter No.L.5919/Med.79-22-4, dated, 19th February 1923, calling for certain information regarding printing of certain forms for use in the Princess Krishnajammanni Tuberculosis Sanatorium, at Mysore, I have the honour to state as follows:-

(1) The forms required to be printed are used in all the Sanatoria and the information required to be filled up by a medical-man would help the Sanatorium --- authorities to select suitable cases and to reject the far advanced ones. It is not absolutely necessary that Tuberculosis bacilli should be detected in the sputum before admission, as other points to be filled up would be sufficient. Where microscopes are available, our locally trained Sub Assistant Surgeons and several other recently qualified Sub Assistant Surgeons from Madras, will be able to detect Tuberculosis bacilli.

(2) It is not intended to make the certificates entirely obligatory but they are meant to provide us with some idea of the suitability of the cases seeking admission. In my opinion, it is for more huma

humane to prevent bad cases from coming here all the way at great risk to their lives than to allow them to come here at their own responsibility and to turn them back to their great disappointment. The double futile journey is not likely to improve their condition.

(3) As these certificates are to be filled up by the private medical men of patients seeking admission, the question of charging fees does not arise. No private medical man interested in the welfare of his patient, is likely to demand fees.

I have the honour to be,

Sir,

Your most obedient servant,

L.V.A.

Senior Surgeon.

of patients to the Princess Krishnajammanni Sanatorium Mysore, I am directed to state that Govt considers that your proposals in the matter are good and nothing can be said against them on merits. They however, consider ~~are constrained to observe~~ that it is too early to prescribe any such certificates, as they would deter many patient from resorting to the Sanatorium, and also give rise to a lot of complaints against the certifying officers. Govt are accordingly pleased to direct that the working of the Sanatorium be watched for some time longer before the rules in question are passed.
